INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Crowley County School District Number RE-1-J, as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Crowley County School District Number RE-1-J's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amount and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Crowley County School District Number RE-1-J as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued or report dated October 26, 2011, on our consideration of the Crowley County School District Number RE-1-J's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages i through x and 31 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Crowley County School District Number RE-1-J's financial statements as a whole. The combining and individual fund financial statements, schedules, and state required schedules are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining and individual fund financial statements, schedules, state required schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**Crowley County School District RE-1J
Management Discussion and Analysis
For the Fiscal Year Ended June 30, 2011**

Management of Crowley County School District RE1-J offers readers the basic financial statements. This narrative is an overview and analysis of the financial activities of the District for the year ended June 30, 2011. The focus of the information is on the primary government (general) fund. Most of the expenditures and revenue for the district reside in the general fund.

The District has adopted the financial reporting model promulgated by the Government Accounting Standards Board (GASB). In accordance with GASB Statement No. 34, Basic Financial Statement and Management Discussion and Analysis for State and Local Governments, the District is not required to restate prior periods for the purposes of providing comparative information. A comparative analysis of the government wide information is presented.

Financial Highlights

- In governmental activities, The District's assets exceeded its liabilities at the close of the fiscal year by \$6,177,859 (net assets). Of this amount \$2,259,761 (unrestricted net assets) may be used to meet the District's ongoing obligations. This is an increase in the net assets over the 2010 audit.
- The District's business type activity (which is food services activities) had unrestricted net assets of \$22,554 at the conclusion of the 2011 audit. This is a slight increase from the previous year's net assets.
- The District entered into a long term lease with Wells Fargo Leasing to have a performance based agreement for energy savings to the district. This included extensive renovation of the districts heating and cooling systems and other cost saving measures.
- At the end of the fiscal year, the District's governmental funds reported combined ending fund balances of \$2.4 million which was an increase of \$288,943 from the previous year. Much of this increase came from cutting staff, careful spending and facility energy savings.
- The long term debt obligation of the district increased significantly during the course of the past few fiscal years. This is due to the capital improvements made to all the facilities to insure energy savings. Prior to these projects, the only long term debt instrument was from the 1992 remodeling and renovation project. The capital long term debt for this debt financing is \$40,000. The obligation with Well Fargo (less any applicable interest) is \$566,747 for the HVAC upgrade. The debt instrument to the First National Bank of Ordway for the asbestos

abatement project is \$64,370 as of May 2011. The total annual payment including interest for all three debt issues is approximately \$163,000.

- The District continued to have adequate resources available to meet their ongoing appropriations during the current fiscal year.

Overview of the Financial Statements

Management's discussion and analysis is intended to serve as an introduction to the district's basic financial statements. Comparison to the prior year's activity is normally provided in this document. This is the sixth presentation of management's discussion and analysis comparison data. Crowley County School District's basic financial statements are comprised of three components: 1) district wide financial statements; 2) fund financial statements; and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

District-Wide Financial Statements

The District wide statements report information about the District as a whole using accounting methods similar to those used by the private sector. The statement of net assets includes all of the Districts assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or expended.

The two District-wide statements report the District's net assets and how they have changed. Net assets, the difference between the district's assets and liabilities are one way to measure the district's financial health or position. The difference between assets and liabilities is reported as net assets. Over time,

Changes in net assets may serve as a useful indicator of whether the financial position of the district is improving or declining.

The District-wide statements are divided into two categories: Governmental activities and Business type activities.

Governmental activities:

Most of the District's basic services are included here, such as instruction, transportation, maintenance and operations, and administration. The School Finance Act of 1994, as amended, made up of property taxes and state equalization, finances most of these activities. This information is comprised of

**Crowley County School District RE-1J
Management Discussion and Analysis
For the Fiscal Year Ended June 30, 2011**

all of the following designated purpose grant funds, capital reserve, and insurance reserve and debt services funds.

Business Type activities:

The District charges fees to help cover the costs of certain services it provides. This information is comprised from the food services fund.

Fund Financial Statements

The fund financial statements provide detailed information about the District's funds, focusing on its most significant funds or "major" funds, not the District as a whole. Fund financial statements are designed to demonstrate compliance with finance related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Crowley County School District uses fund accounting to ensure and demonstrate compliance.

All of the funds of the district can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds: Most of the District's basic services are reported in governmental funds, which generally focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted into cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district wide statements. The District's enterprise fund (a type of proprietary fund) is the same as its business type activities but provide more detailed and additional information such as cash flows. Internal service funds (the other kind of proprietary funds) are used to report activities that provide supplies and services for its other programs and activities. The District uses an enterprise fund to account for its food services operation. The district does not have any internal service funds.

**Crowley County School District RE-1J
Management Discussion and Analysis
For the Fiscal Year Ended June 30, 2011**

Fiduciary Funds: The District is the agent, or fiduciary, for assets that belong to others. The district is responsible for ensuring that assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district wide financial statements because it cannot use these assets to finance its operation. The District uses fiduciary funds to account for its pupil activity fund.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government wide and fund financial statements.

In addition to the financial statements and accompanying notes, this report also contains other supplementary information concerning the District's non-major governmental funds. The combining statements of the non-major governmental funds are presented after the notes to the financial statements.

Financial Analysis of the District as a Whole

The District had total net assets on June 30, 2011 of \$6,205,364. Of the District's \$7,338,601 in assets over 60 percent (or \$4,416,221) were reflected as investments in capital assets (including land, sites, buildings, vehicles, infrastructure, and machinery/equipment). The District uses capital assets to provide services to students; consequently, these assets are not available to meet future spending. The unrestricted net asset amount of \$2,282,315 may be used to meet the District's ongoing financial obligations. This amount was increased around 15 percent from the previous fiscal year.

On the following page is the first table which reflects the changes in net assets for the district. As can be seen the government wide activities net assets have increased to \$6.2 million.

The business type activities groupings have decreased over the past fiscal year. During fiscal year 2010-2011 the district subsidized the food services program by a transfer of \$10,000. The District expects to fund the same amount in 2011-2012.

The changes in the net operations of the District are illustrated in this table above. The District made significant strides in trying to manage costs in the areas of instruction for students. The District has undergone major student enrollment declines over the past budget years. This is reflected in the amount of revenue received by the District especially in the funds received through state equalization. The following charts illustrate the impact during the two recent fiscal years.

Some of the more significant changes are illustrated as:

**Crowley County School District RE-1J
Management Discussion and Analysis
For the Fiscal Year Ended June 30, 2011**

- The cost of all government activities this year was \$4,369,288 which represents a decrease over the prior fiscal year. The cost for support instructional services and district administration decreased during the fiscal year.
- Some of the costs of the District are financed by users of district facilities and programs and that amounted to \$1,150 which decreased over the immediate prior fiscal year.
- The federal and state governments subsidized certain programs with grants and contributions in the amount of \$731,161. All of the Title programs are funded from the federal level administered by the State.
- Most of the Districts costs however, are financed by the District and State taxpayers. This portion of governmental activities was financed with \$2,938,148 in State Equalization revenue from the School Finance Act (1994). The local share of funding was \$750,738.
- The Business type activities are those associated with the Food Services Program. This program had revenues of \$159,969 with a \$10,000 transfer to the fund from the general fund in 2010-2011. The expenses for the same time period were \$168,827 which resulted in a net gain of \$1,142 for the fund.

Financial Analysis of the District's Funds

The District's budget is prepared according to Colorado law and it's based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund.

- Significant cuts have continued to be made for this and the current school year in an attempt to make strides towards a balanced budget and reflecting the changing demographics of the school district. The cuts were made in areas of school personnel and trying to utilize our staff in a more efficient matter and allow for little duplication of services to our students yet providing a quality, academically enriched atmosphere for them. High school and middle school share a Special Education teacher and the elementary cut a half time position.
- The District must maintain a 3 percent emergency reserve as a part of the TABOR Amendment (Taxpayer Bill of Rights). At June 30, 2011 the districts tabor reserve was set at \$121,751 a decrease of \$3,249 from the previous year.
- During the 2008-2009 school year and beyond the district has embarked on a series of positive facility upgrades and improvements. Chief among these are: 1) the HVAC system to bring modern heating and cooling units to the high school and the elementary; 2) New windows for the high school and the elementary replacing windows that were at least twenty five to fifty years old; 3) renovate the interior lighting for all classrooms in the district; 4) an ambitious asbestos removal project to insure that our facilities are

safe for staff and students; 5) installing security cameras through a collaborative effort with Crowley County; 6) addition of lighting and concession/restroom facilities to the Crowley County Baseball fields in cooperation with Crowley County.

Capital Assets and Debt Administration

The Districts investment in capital assets for its governmental and business type activities as of June 30, 2011 amounts to \$4,416,221

Long Term Debt

At the end of the fiscal year (June 30, 2011) the District had the following schedule in long term obligations. The American National Bank is an on-going long term debt instituted in 1992 to do facility upgrades in the district. This obligation matures in 2011. The district has set aside the final payment on this debt in the amount of \$40,000.00. This amount is reflected in the audit in the Debt Services Fund. The asbestos lease long term debt with First National Bank of Ordway will be around \$64,370 in June of 2011. The energy lease with Wells Fargo is a twelve year payment that will conclude in 2018 (\$566,747). The district had compensated personnel absences in the amount of \$66,674 for the fiscal year ending June 30, 2011.

Attached below is the schedule of long term debt for the district:

Schedule of Long Term Debt:

American National Bank Lease	1992 Facility Improvements	Matures 2011	\$ 40,00.00

Economic Factors Bearing on the District's Future

The factors that will affect next year's budget are the same items that have impacted Crowley County School District for the past fiscal years: special education costs, dwindling local resources, declining student enrollment, aging buildings, increased transportation costs and increased state and federal mandates.

The largest impact to the school district remains declining student enrollment. This is a problem that impacts all surrounding school districts and is not indigenous to Crowley County alone. In 1996 Crowley County School District had a fall student count of 642 students, in 2007 the fall count was 500.5 and in 2010 the fall count was 494. The years have seen a steady decline in the number of students. This can be attributed to several factors; however, chief among them would be the stagnant economy and the issue to non completers. Many of our fixed costs remain the same or escalate and with the declining student enrollment and resulting decline in state equalization dollars it makes budgeting and allocations even more challenging.

One item that affects the district is the rising number of special education students. We have had an increase in therapeutic foster homes in the county. Many of these placements require specialized assistance from the district with no resulting funds that follow those requirements. Several of these placements need services for emotionally disturbed youth and require intense one on one service. We have been able to handle the special transportation and rearrange our busing schedules to accommodate this.

The cost of transporting our students is economically straining the district. At this time, over fifty percent of our students are eligible for transportation services. The increased costs of fuel, salaries and equipment make this a problem for the district. The state transportation revenue has not kept pace with costs the district faces in meeting this expense.

The District has not been able to pass any bond issues or mill levy overrides to help supplement the drain on general fund revenues in repairing and renovating the aging buildings. All of the major renovations have been paid by outside foundations or grants obtained by the district. The need for a debt service bond issue is severe and the board has expressed serious consideration to approach the voters to help alleviate the continued drain on program area development to finance the needed improvements to facilities. The assessed valuation of Crowley County School District could never meet the bonding capacity to construct a modernized school. The choices at this point are to continue to

**Crowley County School District RE-1J
Management Discussion and Analysis
For the Fiscal Year Ended June 30, 2011**

improve our existing facilities. If the district makes the needed payments for the energy upgrade and the existing refinanced debt that would "free" up needed revenue to help maintain and expand program development for our student body.

The board, under recommendation from the District Accountability Committee, did undertake a major renovation to the energy distribution systems for the district. This project was finished in December of 2008 and we anticipate having cost savings and a more climate friendly facility for both students and staff.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET ASSETS
June 30, 2011

Amounts reported for governmental activities in the statement of net assets are different because:

<u>Total Fund Balance – Governmental Funds</u>	2,493,947
Capital Assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$8,722,550 and the accumulated depreciation is \$4,311,280.	4,411,270
Property tax revenue is recognized when earned (claim to resources established) rather than when “available”. All of the deferred property tax revenue is not available.	19,000
Long term liabilities are not due and payable in the current period and therefore are not reported in the funds.	(671,117)
Unamortized bond issue cost is not reported in the funds.	10,986
Accrued interest payable is not reported as a liability in the funds.	(19,553)

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND
 BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
 For the Year Ended June 30, 2011

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balances -- Total Governmental Funds 288,943

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated used lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital Outlays	10,900	
Loss on Disposition	-	
Depreciation Expense	<u>(260,103)</u>	(249,203)

Property tax revenues received prior to the year for which they are being levied or are not "available" at year end are reported as deferred revenue in the governmental funds. They are, however, recorded as revenues in the statement of activities. Deferred property tax revenues increased this year. 4,000

In the statement of activities compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amount paid). During the year, compensated absences decreased by this amount. 2,018

The governmental funds report debt proceeds as an other financing source, while repayment of debt principal is reported as an expenditure. The effect of issue cost and premiums are recognized when the debt is issued in governmental funds, whereas, these amounts are deferred and amortized in the statement of activities. Interest expense is recognized as it accrues in the statement of activities regardless of when it is due. The net effect of these differences follows:

Debt Proceeds	-	
Debt Payments	165,715	
Accrued Interest	2,365	
Issue Cost and Amortization	<u>(3,143)</u>	

CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES 210,695

NOTES TO BASIC FINANCIAL STATEMENTS

CROWLEY COUNTY SCHOOL DISTRICT NUMBER RE-1-J
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2011

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Crowley County School District Number RE-1-J (the District) conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the more significant policies:

The District operates under an elected Board of Education with seven members.

The District is the lowest level of government, which is considered to be financially accountable over all activities related to public school education in Crowley County School District Number RE-1-J. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities. The Board of Education members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters.

A. Reporting Entity

Governmental Accounting Standards board (GASB) Statement No. 14 (as amended by Statement No. 39), "*The Financial Reporting Entity*" (GASB No. 14) describes the financial reporting entity as it relates to governmental accounting. According to this Statement, the financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations whose exclusion from the reporting entity's financial statements would cause those statements to be misleading or incomplete. Any organizations that can be described by these last two items are included with the primary government in the financial statements as component units.

This District is not included in any other governmental "reporting entity" as defined in GASB No. 14 and does not include any other component unit as part of its "reporting entity". As required by accounting principles generally accepted in the USA, these basic financial statements present the District (the primary government) and its component units.

B. GASB Statement No. 20

Under GASB Statement No. 20 "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting", all proprietary funds continue to follow Financial Accounting Standards Board (FASB) standards issued on or before November 30, 1989. However, from that date forward, proprietary funds have the option of either 1) choosing not to apply future FASB standards (including amendments of earlier pronouncements), or 2) continuing to follow new FASB pronouncements (unless they conflict with GASB guidance). The District has chosen not to apply future FASB standards for its proprietary fund.

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Government-Wide and Fund Financial Statements

The Government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds (General Fund) and individual enterprise funds are reported as separate columns in the fund financial statements.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the District's governmental and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, operating statements present increases and decreases in net current assets and unreserved fund balance as a measure of available spendable resources. This means that only current liabilities are generally included on their balance sheets.

CROWLEY COUNTY SCHOOL DISTRICT NUMBER RE-1-J
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2011

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Amounts reported as program revenues included 1) charges to customers or applicants for goods, services or privileges provided 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

All governmental fund types use the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period, or soon enough thereafter, to pay liabilities of the current period. Revenues are considered to be available if collected within 60 days after year-end.

Property and automotive ownership taxes are reported as receivables and deferred revenue when levied and as revenues when due for collection in the following year and determined to be available.

Grants and entitlement revenues are recognized when compliance with matching requirements is met. A receivable is established when the related expenditures exceed revenue receipts.

Expenditures are recorded when the related fund liability is incurred with the exception of general obligation and capital lease debt service which is recognized when due and certain accrued sick and personal pay which are accounted for as expenditures when expected to be liquidated with expendable available financial resources.

The proprietary fund types are accounted for on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. The measurement focus in these funds is on the flow of economic resources and emphasizes the determination of net income. All assets and all liabilities associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's ongoing operations. The principal operating revenues of the District's proprietary funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

CROWLEY COUNTY SCHOOL DISTRICT NUMBER RE-1-J
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The major funds presented in the accompanying basic financial statements are as follows:

- Major Governmental Funds

General Fund – the general operating fund of the District; used to account for all resources that are not required legally or by sound financial management to be accounted for in another fund.

- Proprietary Funds – Business – Type Activities

Enterprise Funds – used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Enterprise funds are considered major funds because of community interests in the activities and sources of funding supporting these operations.

Food Service Fund – this fund accounts for all financial activities associated with the District's school breakfast and lunch programs

F. Cash and Investments

Cash represents amounts on deposit with financial institutions or held by the District. The District is allowed to invest in the following types of investments: short-term certificates of deposit, repurchase agreements, money market deposit accounts, mutual funds, government pools, and U.S. Treasury Obligations. All other securities are recorded at fair value. It is the intention of investing to maximize interest income, and securities are selected according to their risk, marketability, and diversification. For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

G. Receivables

Property taxes levied in 2010 but uncollected in 2011 are identified as property taxes receivable. Amounts of property taxes that are not available at June 30, 2011 are recorded as deferred revenue, and are presented net of an allowance for uncollectible taxes. Program grants are recorded as receivables and revenues at the time reimbursable project costs are incurred.

H. Inventories

Materials and supplies inventories are stated at cost. Inventories recorded in the Food Services Fund consist of purchased and donated commodities. Purchased inventories are stated at cost. Donated inventories, received at no cost under a program supported by the Federal Government, are recorded at their estimated fair value at the date of receipt.

The cost of all inventories is recorded as an asset when the individual inventory items are purchased, and as an expenditure or expense when consumed.

I. Capital Assets

Capital assets, which include property, vehicles and equipment, are utilized for general District operations and are capitalized at actual or estimated cost. Donations of such assets are recorded at estimated fair value at the time of donation. Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Maintenance, repairs, and minor renovations are recorded as expenditures when incurred. Major additions and improvements are capitalized. When assets used in the operation of the governmental fund types are sold, the proceeds of the sale are recorded as revenues in the appropriate fund. The District does not capitalize interest on the construction of capital assets in governmental funds. However, the District does capitalize interest on the construction of capital assets in business-type activities.

The monetary threshold for capitalization of assets is \$5,000. The District's capital assets are depreciated using the straight-line method over the estimated useful lives of the fixed assets (5-40 years). Depreciation of all capital assets is charged as an expense against their operations. Depreciation is recorded in the year of acquisition.

J. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or proprietary fund type statement of net assets. The District records long-term debt of governmental funds at the face value. The District's general obligation bonds are serviced from property taxes and other revenues of the Debt Service Fund. Capital leases are serviced from property taxes and other revenues of the General Fund and Capital Reserve Fund. The long-term accumulated unpaid accrued sick leave is serviced from property taxes and other revenues by the respective fund type from future appropriations.

K. Constitutional Amendment

In November 1992, Colorado voters approved Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR contains revenue, spending, tax and debt limitations, which apply to the State of Colorado and local governments. It requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of an expiring tax, or tax policy change directly causing a net tax revenue gain to any entity.

K. Constitutional Amendment (continued)

On November 7, 1995 the registered voters approved a ballot resolution authorizing Crowley County School District Number RE-1-J to collect, retain and expend all revenues from any source provided that no property tax mill levy be increased without the consent of the voters.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future years. TABOR requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be three percent or more of fiscal year spending (excluding bonded debt service). As of June 30, 2011 the District reserved \$116,800 for this purpose.

Spending and revenue limits are determined based on the prior fiscal year's spending adjusted for inflation in the prior calendar year plus annual increases in funded student enrollment. Fiscal year spending is generally defined as expenditures and reserve increases with certain exceptions.

L. Property Taxes

Under Colorado law, all property taxes are due and payable in the year following the year levied. The 2010 property tax calendar for Crowley County was as follows:

Levy Date	December 15, 2010
Lien Date	January 1, 2011
Tax Bills Mailed	January 1, 2011
First Installment Due	February 28, 2011
Second Installment Due	June 15, 2011
If Paid in Full, Due	April 30, 2011
Tax Sale – 2009 Delinquent Property Taxes	October 25, 2010

M. Accumulated Staff Leave

Compensated absences are made up of accumulated sick leave reported as non-current liabilities in the government-wide financial statements. As of June 30, 2011, the District has recorded an estimated liability of \$66,674 relating to accrued sick leave payable.

A summary of changes in compensated absences is as follows:

N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

O. GASB Statement No. 54

The Government Accounting Standards Board (GASB) has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

1. Nonspendable such as fund balances associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned).
2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District Board of Directors (the District's highest level of decision-making authority).
4. Assigned fund balance classification is intended to be used by the government for specific purposes that do not meet the criteria to be classified as restricted or committed.
5. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Fund Balance Classification Policies and Procedures

Committed Fund Balance Policy:

The District's Committed Fund Balance is fund balance reporting required by the School Board, either because of a School Board Policy in the School Board Policy Manual, or because of motions that passed at School Board meetings.

Assigned Fund Balance Policy:

The District's Assigned Fund Balance is fund balance reporting occurring by School Board Administration authority, under the direction of the Chief Business Officer.

Order of Fund Balance Spending Policy

The District's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries.

First, non-spendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then unrestricted fund balances are determined following the order of committed, assigned, and unassigned.

NOTE 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental funds balance sheet includes a reconciliation between *fund balances – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. Additionally, the governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities.

These reconciliations detail items that require adjustment to convert from the current resources measurement and modified accrual basis for governmental fund statements to the economic resources measurement and full accrual basis used for government-wide statements.

NOTE 3 BUDGETARY INFORMATION

Revenues and expenditures are controlled by budgetary accounting systems in accordance with various legal requirements. The budgeted revenues and expenditures represent the original adopted budget as subsequently adjusted by the Board of Education in accordance with Colorado School Laws. Budgets are generally prepared on the same basis as that used for accounting purposes.

The District has set procedures to be followed in establishing the budgetary data reflected in the financial statements:

1. Prior to June 1, the Business Manager submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public notices are released to obtain taxpayer comments.
3. Prior to June 30, the budget is legally enacted through passage of a resolution.
4. The Business Manager is authorized to transfer budgeted amounts between categories within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education.
5. Formal budgetary integration should be employed as a management control device during the year for the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, Enterprise Fund, and Fiduciary Funds.
6. Budgets for the General, Special Revenue, Debt Service, Capital Projects, Enterprise Funds, and Fiduciary Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTE 3 BUDGETARY INFORMATION (Continued)

All appropriations lapse at the end of each fiscal year. Authorization to transfer budgeted amounts between programs and/or departments within any fund and the reallocation of budget line items within any program and/or department rests with the Superintendent of Schools and may be delegated to an appropriate level of management. Revisions and/or supplemental appropriations that alter the total expenditures of any fund must be approved by the Board of Education.

Budgetary amounts reported in the accompanying basic financial statements are as originally adopted and amended by the Superintendent and/or the Board of Education throughout the year.

NOTE 4 CASH AND INVESTMENTS

Deposits

The Colorado Public Deposit Protection Act (PDPA), requires that all units of local government deposit cash in eligible public depositories, eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

At June 30, 2011, the District's bank balance and corresponding carrying balance were as follows:

	<u>Carrying Balance</u>	<u>Bank Balance</u>
Insured (FDIC)	291,479	291,479
Uninsured, Collateralized under the Public Deposit Protection Act of the State of Colorado	2,492,356	2,582,223
Cash with County Treasurer	40,669	-
Cash on Hand	200	-
<u>Total Cash and Deposits</u>	<u>2,824,704</u>	<u>2,873,702</u>

As presented above, deposits with a bank balance of \$2,582,223 and a carrying balance of \$2,492,356 as of June 30, 2011 are uninsured, are exposed to custodial risk, and are collateralized with securities held by the pledging financial institution.

Investments

At June 30, 2011, the District had the following investments:

	<u>Investment</u>	<u>Maturity</u>	<u>Fair Value</u>
COLOTRUST	State Pool	41 Day Avg.	4,134

Interest Rate Risk – The District does not have a formal investment policy that limits investment maturities for managing possible fair value losses due to increasing interest rates.

NOTE 6 PENSION PLAN

The District contributes to the Public Employees' Retirement Association of Colorado (PERA), a cost-sharing multiple-employer defined benefit pension plan. PERA provides retirement and disability benefits and survivor benefits to eligible beneficiaries annually adjusted for cost-of-living-increases. Colorado revised Statutes (Title 24, Article 510) provides authority for the operation of the plan. The plan is administered by a 16 member Board of Trustees of which 14 are elected by the membership. PERA issues a publicly available financial report that includes financial statements and required supplementary information for PERA.

That report may be obtained by contacting PERA, 1300 Logan Street, Denver, Colorado, 80203.

Funding Policy

Plan members are required to contribute 8% of their annual covered salary and the District is required to contribute at a stipulated rate. That rate was 13.85% from July 1, 2010 to December 31, 2010 and 14.75% thereafter. An additional portion of the District's contribution (1.02% of covered salary) is allocated for the Health Care Fund. Requirements for contribution percentage are established and may be changed by the PERA Board of Trustees. The District's contributions for the latest three years were equal to the required contributions for the periods and were as follows:

NOTE 7 POSTEMPLOYMENT HEALTH-CARE BENEFITS

The District contributes to the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer post-employment HealthCare plan administered by PERA. The HCTF provides a HealthCare premium subsidy to PERA participating benefits recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the CRS, as amended, assigns the authority to establish the HCTF benefit provisions to the State Legislature. PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the HCTF. That report may be obtained by contacting PERA, 1300 Logan Street, Denver, Colorado 80203.

Funding Policy

The Crowley County School District RE-1-J is required to contribute at a rate of 1.02% of covered salary through June 30, 2011 for all PERA members as set by statute. No member contributions are required. The contribution requirements for the Crowley County School District RE-1-J are established under Title 24, Article 51, Part 4 of the CRS, as amended. The apportionment of the contribution to the HCTF is established under Title 24, Article 51, Section 208 of the Colorado Revised Statutes, as amended. The Crowley County School District RE-1-J's contributions to HCTF for the years ending June 30, 2011, 2010, and 2009 were \$22,101, \$23,851 and \$24,350, respectively, equal to their required contributions for each year.

NOTE 8 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The District maintains commercial insurance for all risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

NOTE 9 COLORADO SCHOOL DISTRICT SELF INSURANCE POOL

The District belongs to the Colorado School District's Self-Insurance Pool. The Pool was established by the Colorado Association of School Boards (CASB) to provide insurance coverage to participants in the areas of General Liability, Errors and Omissions, Automobile Liability, Auto Physical Damage, Auto Personal Injury Protection, Real and Personal Property, Crime, Workers' Compensation and other coverage. The Board of Directors is composed of eight persons; seven of whom are appointed by the Board of Directors of CASB and the Executive Director of CASB. The Pool is managed by an independent manager chosen by the Board of Directors. Each member's initial contribution and subsequent contributions are determined by the Pool based on factors including, but not limited to, the Aggregate Pool claims, the cost of Administrative and other operating expenses, the number of participants, the adequacy of both Operating and Reserve Funds and other factors touching on the status of the Pool or an individual participant, and as approved by the Colorado Insurance Commissioner.

As the District did not exercise oversight responsibility nor have sufficient control over Pool activities, the Pool is not a component unit of the District and only the District's share of contributions to the Pool is recorded as Expenditures in the Insurance Reserve Fund.

The District's share in the Pool is not determinable from current information, but is estimated to be less than 1%. The District's share, if calculated, would not be material to the Pool's financial information at June 30, 2011.

Advance Refunding

On May 15, 2003, the District obtained \$515,000 through a lease agreement with The Bank of Cherry Creek by issuing Certificates of Participation with an average interest rate of 3.82%. The net proceeds from the sale of the Certificates was used to provide funds to refund in advance of maturity the remaining \$510,000 outstanding Project Fixed Rate Certificates of Participation, Series 1992A, executed and delivered in connection with the District's participation in the Colorado Association of School Boards Lease Purchase Finance Program. Proceeds of \$512,550 were deposited with Wells Fargo Bank West, National Association, as the escrow agent for the payment on the refunded Certificates. As a result, the Series 1992A Certificates of Participation are considered defeased and the liability for those Certificates have been removed from the Districts general long term debt. The amount that remains outstanding on the defeased debt as of June 30, 2011 is \$75,000

NOTE 13 SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Claims and Judgments - The District participates in a number of federal, state and county programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. As of June 30, 2011, significant amounts of grant expenditures have not been audited by the grantor but the District believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual government funds or the overall financial position of the District.

NOTE 14 JOINT VENTURES

Not reflected in the accompanying financial statements is the District's participation in the South Central Board of Cooperative Educational Services for Teacher Leadership (BOCES). The BOCES is an organization that provides member districts educational services at a shared lower cost per District.

The District has one member on the Board. The Board has final authority for all budgeting and financing of the joint venture. The District's share of the joint venture is not determinable at June 30, 2011. The joint venture summary audited financial information as of June 30, 2010 is as follows:

Total Assets	<u>2,970,618</u>
Liabilities	1,573,370
Net Assets	<u>1,397,248</u>

The BOCES is not included as a component unit of the District as the financial responsibility is minimal, there is no financial interdependency, the District does not have the ability to significantly influence the operations of the BOCES and the District is not accountable for fiscal matters of the BOCES. The BOCES is audited annually and files a report with the Colorado State Auditor's office.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND OTHER SCHEDULES

Special Revenue Funds

Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Reserve Fund – This fund is authorized by Colorado School Law and is funded by allocated revenues from the General Fund. It is used to fund ongoing capital needs such as site acquisition, building additions and equipment purchases.

Debt Service Fund

This fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Proprietary Fund – Business – Type Activities

Enterprise Funds – used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Enterprise funds are considered major funds because of community interests in the activities and sources of funding supporting these operations.

Food Service Fund – This fund accounts for all financial activities associated with the District's school breakfast and lunch programs.

Agency Fund

Pupil Activity – This fund is used to account for assets held by the District in a trustee capacity or as an agent for others.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education
Crowley County School District Number RE-1-J
Ordway, CO 81063

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Crowley County School District Number RE-1-J, as of and for the year ended June 30, 2011, which collectively comprise the Crowley County School District Number RE-1-J's basic financial statements and have issued our report thereon dated October 26, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Crowley County School District Number RE-1-J's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Crowley County School District Number RE-1-J's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Crowley County School District Number RE-1-J's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting. See Item 2011-1. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Crowley County School District Number RE-1-J's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Education, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Education
Crowley County School District Number RE-1-J
Ordway, CO 81063

Compliance

We have audited the compliance of Crowley County School District Number RE-1-J, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2011. Crowley County School District Number RE-1-J's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Crowley County School District Number RE-1-J's management. Our responsibility is to express an opinion on Crowley County School District Number RE-1-J's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Crowley County School District Number RE-1-J's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Crowley County School District Number RE-1-J's compliance with those requirements.

In our opinion, Crowley County School District Number RE-1-J, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of Crowley County School District Number RE-1-J, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Crowley County School District Number RE-1-J's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Crowley County School District Number RE-1-J's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Directors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
